Subject: AES - Agremax Pictures

Jose,

Here are photos of the Guayama site where Agremax has been deposited in the dry bed of the Rio Seco (also known as the Cimarrona River due to its location in Cimarrona Ward). *(See attached file: R0012634.JPG)(See attached file: R0012635.JPG)*

A 20 mile "road" built of Agremax in an otherwise undeveloped area crosses the river. *(See attached file: R0012626.JPG)*

Sorry for the delay in sending these.

Best regards,

Len Grossman
